

## All the bells and whistles.

Opus<sup>™</sup> patented cradle design uniquely tilts 40° with a sliding baffle that prevents visibility into the housing or ceiling. 361° rotation means you can move light to the beat of the lighting environment with ease.

## A melody of trims and finishes.

Opus<sup>™</sup> luminaires are a rhapsody of on-the-fly interchangeable trims with single or dual finishes available. Lightheaded in-house powder coating ensures a quality finish that lasts.
