Fibercloud HQ

Milan, IT

The light sculpture designed by the architect Giuseppe Tortato with 200 meters of LED tube connects all the floors of the new Fastweb headquarters in the newly created Piazza Olivetti in Milan.

The entire light run is made up of 100 individual segments, allowing it to seem to travel through each floor to ceiling.

“A 'cloud of ideas' that radiates the entire building and those who work there, to connect people, to share ideas and projects and create new synergies.”

DMX Integration with Music

oup 2021

Project Overview:

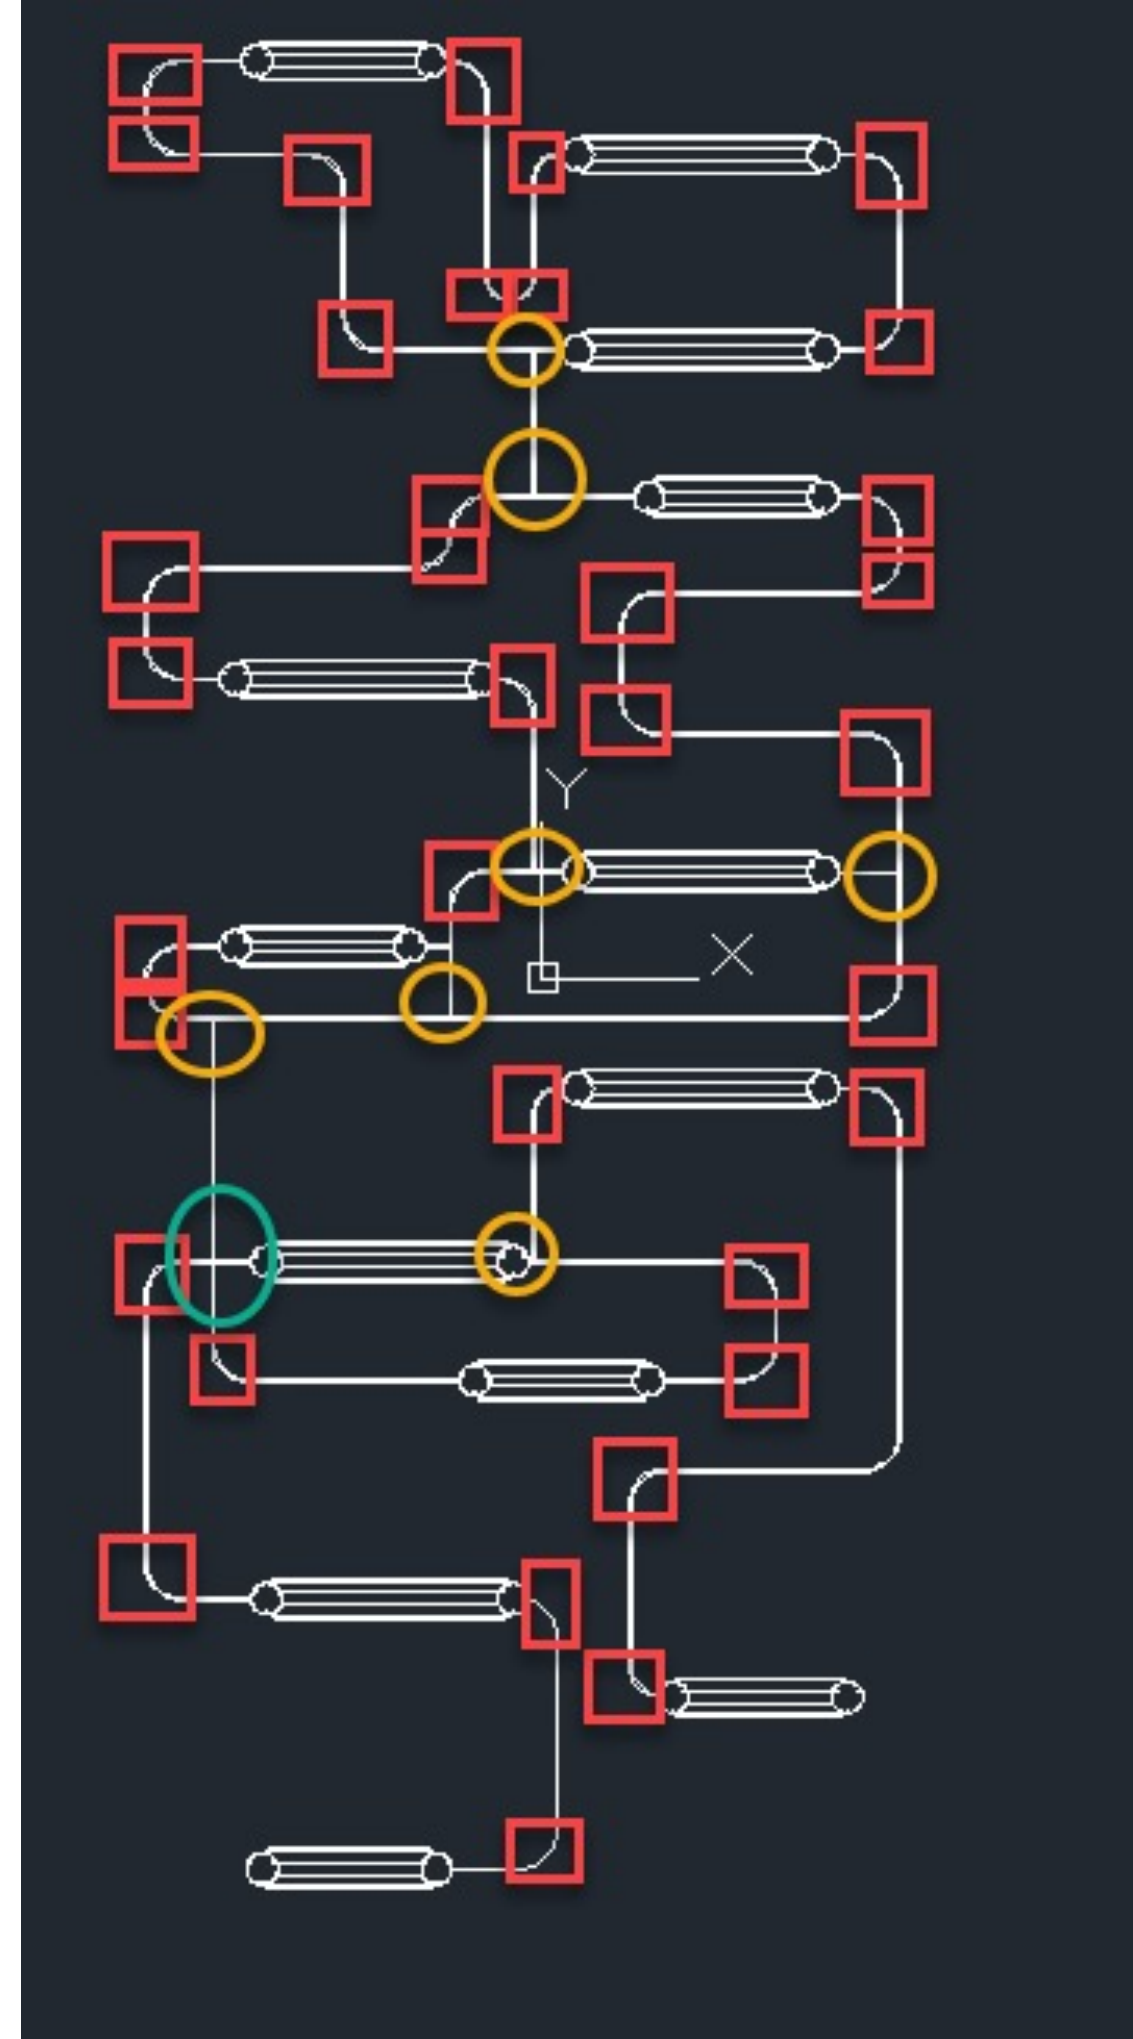

Working with design team to bring concept to reality. Orbit providing illuminated fixtures including metal fabrication for decorative structure and tubing connecting fixtures.

Project challenges:

Exterior installation in high ambient temp environment

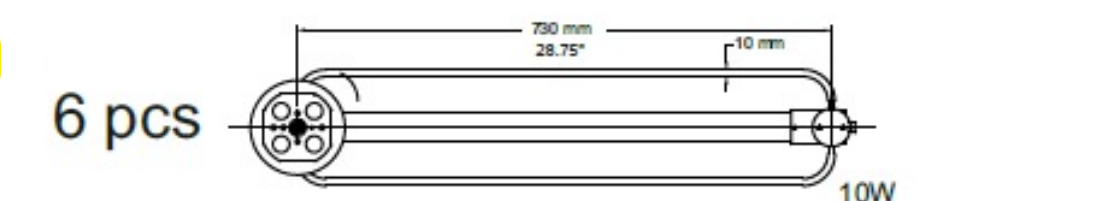

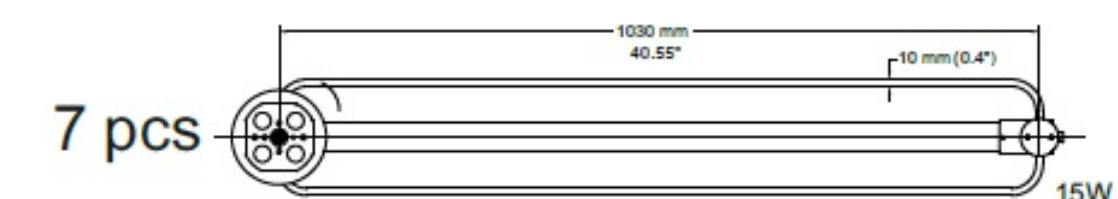

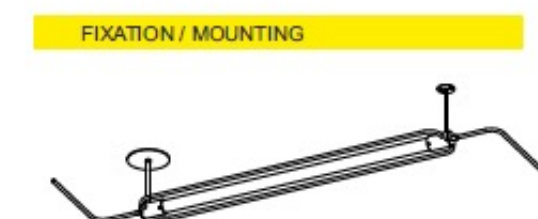

Solutions:

Metal fabrication to provide structure and industrial look. Created modular tubing system, for easy on-site installation

Moontower – Amenities Space

Austin, TX (Near UT Campus)

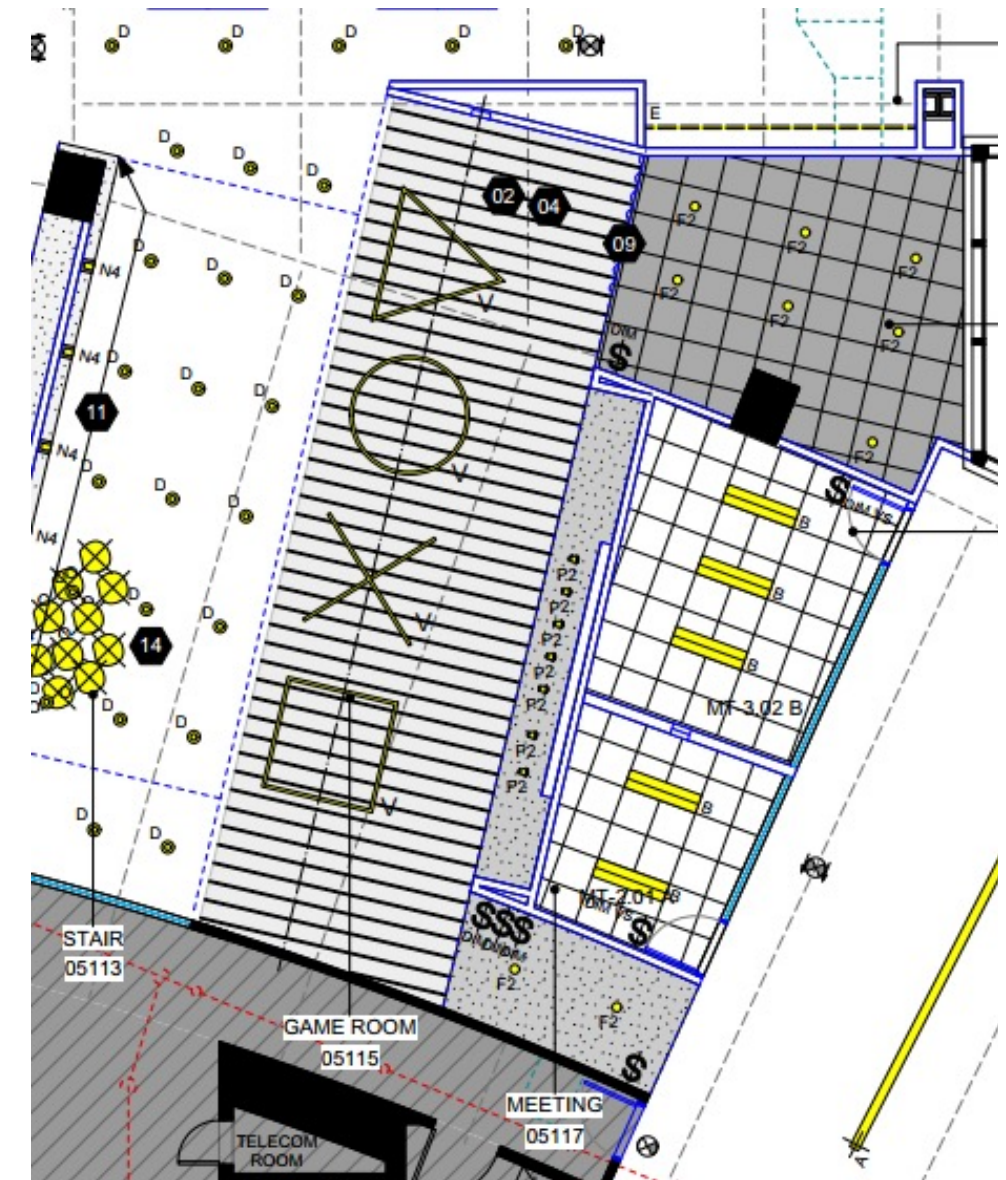

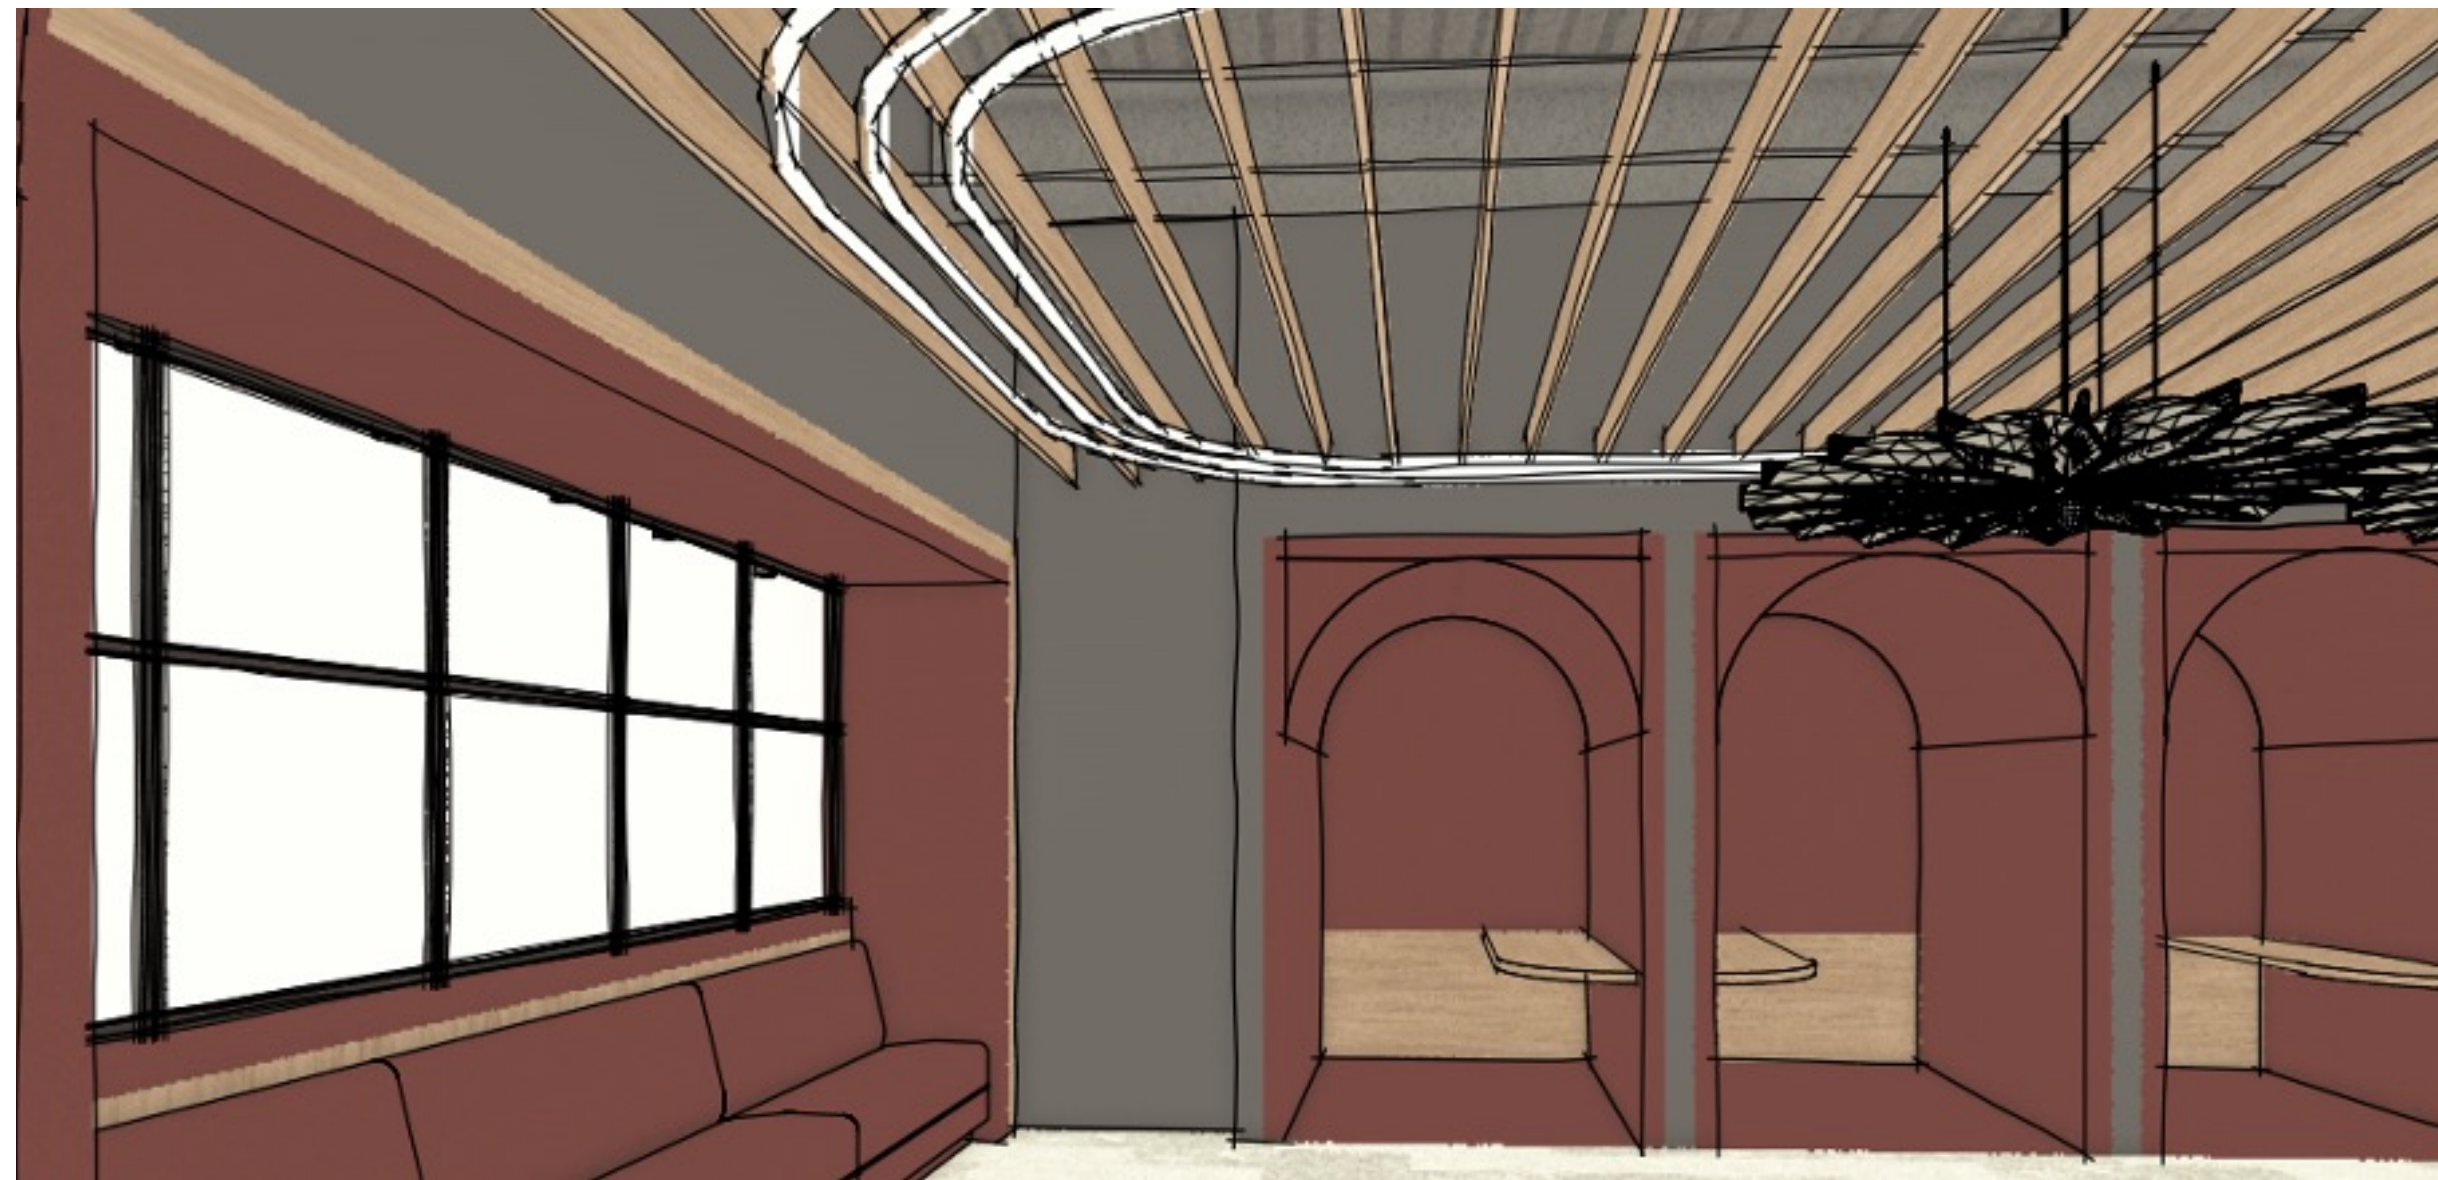

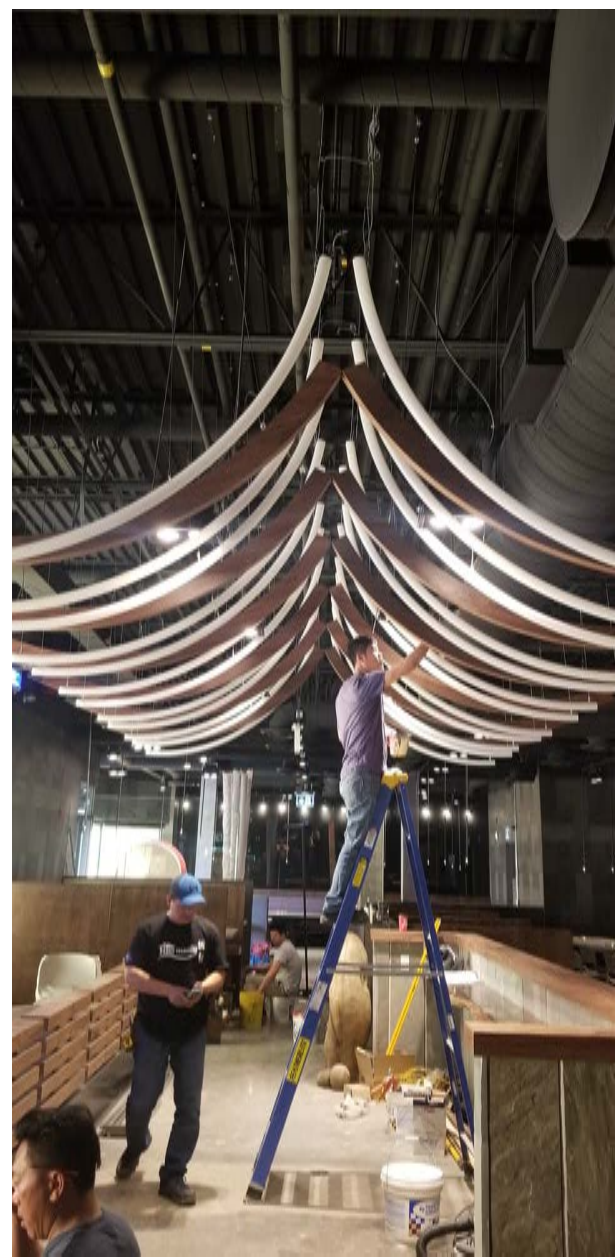

iManage Corp HQ

Chicago, IL

The Lux Tube is used to create the central design element in two employee focused spaces. The complete flexibility of shape allowed designers to integrate the lighting with the spaces in complementary and playful ways.

Expected Install Completion - 2021

Matsuda

Toronto, ON

Inspired by nature's curves, Lux Tube, equipped with RGBW, stuns as the focal point of this restaurant in downtown Toronto. A round profile is used in a 2" diameter profile with a curved design to create a soft but striking installation.

Lux Tube

The client uses Lux Tube from Orbit Illuminations to help create a one-of-a-kind experience and workout space.

Microsoft Boardroom

Manhattan, NY

Created a custom shape ellipse fully luminous tube pendant for over a board room table for Microsoft's new offices in NYC. Lighting designer Kugler Ning Lighting requested help to create the perfect size, shape, and lumen output for the project.

Ratzan Law Firm

Miami, FL

Working on the concept stage currently with our local agent, Sesco Lighting, and the designer to bring a concept to reality.
